Education

Mahindra University Aug 2023-Present
B.Tech Electronics And Communication Engineering *Current GPA: 6.01*

Tirumala Intermediate (MPC) June 2021-May 2023
929/1000

Bhashyam high School (10th Grade) May 2020 – June 2021
597/600

Coursework

Courses: VLSI, DSP, Control Systems, Embedded systems and IoT.

Skills

Languages: C, Basics of Python,HTML,CSS,Javascript,SQL,Web Scrapping.
Tools: VS Code, Git, GitHub, Cadence Virtuoso, Arduino IDE, MATLAB, Power BI.
Frameworks: React.js.
Libraries: Pandas, NumPy, BeautifulSoup, Selenium.

Projects

React User Management Portal | *React.js, JavaScript, CSS, React Router, Vercel* Jun 2026

- Built a responsive multi-page React application featuring user registration, login, profile management, and client-side routing.
- Implemented reusable React components and state management to improve maintainability and user experience.
- Deployed the application on Vercel and optimized performance for seamless navigation across devices.

Startup Lead Finder | *Python, Selenium, BeautifulSoup, Pandas* Jun 2026

- Built an automated lead generation tool to extract startup information including company names, websites, locations, and contact details from public sources.
- Automated data collection and storage pipelines, generating structured startup databases for outreach and market research.
- Implemented filtering and validation mechanisms to improve lead quality and reduce duplicate entries.

AI-Powered News Scraper and Summarizer | *Python, BeautifulSoup, Requests, Pandas, NLP* May 2026

- Developed a web scraping system to collect news articles from multiple online sources in real time.
- Implemented AI-powered text summarization to generate concise summaries and improve information accessibility.

Training

IoT-Network specialist | Nov 2025 –Dec 2025
Certificate in IoT-Network specialist from Reliance foundation

Javascript | Sept 2025 – Sept 2025
completed javascript for beginners from udemy.

Gen AI| june 2025 – July 2025
completed course from Infosys

Hobbies

Sports: Cricket, volley ball.
Interests: Exploring latest technology and innovations, following motivational speakers, listening music.
